Sencommunications, Inc. Partners with Tryten Technologies

Tampa, FL: Sencommunications, Inc. has announced that it has partnered with Tryten Technologies to offer the full line of Tryten solutions. Tryten is a leading innovator in Workplace Mobility Solutions. They design lightweight, flexible, and innovative mobile carts for Healthcare, Education, Government, and Enterprise businesses.

"We are excited to partner with Tryten to offer their mobile cart solutions to both current and future customers", said Stacie Miller, Sencommunications' CEO." We have been in the communications products and services business for over 33 years. To come across such an innovative product line to add to our portfolio gives us a chance to offer valuable solutions to our core verticals, such as Enterprise, Healthcare and Education. Additionally, the carts hold our staple products, such as speakerphones, video cameras, and video bars."

Tryten was founded in 1993 and launched into the market by offering iPad Kiosk and iPad floor stands with security features like high-end locks. In 2016, Tryten broke into the healthcare vertical by launching their first mobile tablet cart. When COVID hit in 2020, Tryten developed the "Virtual Visitor" solution to assist in remote visitations and the Virtual Rounding Assistant so practitioners could see patients efficiently and safely using live interactive video, no matter where the practitioner was located. Tryten Mobile carts are a staple in the telemedicine industry with uses cases including telestroke, telecardiology, mobile ultrasound, video remote interpreting (VRI), EHR workflow support, videoconferencing, and more.

"Business partners like Sencomm play a vital role in our success," affirms Tryten founder and CEO Tony Janzen. "The Sencomm team truly understands their customers and their needs, positioning them well for rapid expansion based on their knowledge and their focus on great service. We look forward to a great future together!"

About Sencommunications, Inc.: Sencommunications, Inc. is a Value-Add Reseller of business communications products and services. Sencomm is a nationally certified woman-owned business (WBE) and woman-owned small business (WOSB) company celebrating 33 years in business.
